

Dear Elaine-

The Academic Advising Subcommittee met today and would like to offer our feedback on the WASC Institutional Proposal Draft.

1. We would like to offer to be one of the committees who completes the exercise "Worksheet for Preliminary Self-Review under the Standards," if we can be helpful

2. Under Sub-Theme Three - Co-curriculum and Residential Life: The piece mentions academic and career advising, but all of the Questions for Reflection are about academic advising. We would like to suggest that career advising questions be addressed under "Co-curriculum and Residential Life" and that outcomes One and Two be moved to "Sub-Theme Two - Curriculum and the Roles of General Education and the Major" since academic advising (with student as agent, rather than that which falls under faculty roles and responsibilities) seems to be a curricular concern.

3. Under Outcome Two [Sub-Theme Three]: We would like to add that consistent and timely information be communicated to academic advisors, including updates as they occur. Also that training be provided for continuing advisors.

Thank you for giving our committee this opportunity to provide feedback.

Wendy
