

**2.11** *Consistent with its purposes, the institution develops and implements co-curricular programs that are integrated with its academic goals and programs, and supports student professional and personal development.*

**Evidence:**

- [Student Affairs and Enrollment Management](#) (SAEM) is responsible for most co-curricular programs and student support services. Our campus offers myriad opportunities for student participation in academically compatible co-curricular activities, ranging from clubs, organizations, Greek life, leadership programs, associated student productions, athletic facilities and a student union. SAEM also provides an eclectic array of student support services, such as, a tutorial center and learning skills services.
- [JUMP](#) (Join Us Making Progress) is the community service program of the Associated Students, Inc and is co-sponsored by the Sonoma Student Union. Jump offers students opportunities for personal growth and experiential education through both on campus and off campus activities.
- The [Office of Residential Life](#), a unit in SAEM, offers assistance to students making the transition to college life in the form of cultural and recreational activities, which complement their classroom experiences.
- The aim of the [Educational Mentoring Team](#) program is to increase student retention through facilitating student integration into campus life. EMT centers around a freshman seminar that is lead by a team composed of one faculty member, a student services professional and a peer mentor. The seminar introduces students to skills, resources and concepts necessary for a successful transition to college.
