Sonoma State University - Integrative Physiologist

The Sonoma State University Biology Department seeks a dynamic teacher-scholar for a tenure-track Assistant Professor position starting Fall 2015. We are seeking a broadly trained biologist whose research uses molecular tools to address fundamental questions in physiology. Research area is open. The successful candidate will be expected to maintain an externally funded research program involving both graduate and undergraduate students and teach in her/his areas of expertise. See full job announcement at our web site: http://www.sonoma.edu/aa/fa/prospective/tenure-track.html

Review of completed applications will begin Oct. 25, 2014. To apply, candidates must submit the following documents electronically: a letter of application; a statement of research goals and plan to integrate graduate students into the research program, a statement of teaching philosophy and goals, a complete and current vita including full citations of all publications; and the names, titles, email addresses and telephone numbers of three references. If available, please include a copy of recent teaching evaluations or a recent course syllabus.
