Directed Study for seniors is an individualized program of study taken for credit/no credit. It may be an exploratory study or project where a student is learning material or skills for the first time. It may be a program of study devised by a faculty member in which the student plays a part. A student consults with a faculty member on a topic, develops a plan of study, including number of units, the project outcomes, number of meetings with the faculty sponsor, and deadline for completion. Project Form is submitted to Admissions after the beginning of the semester and before the last day to add classes. Cr/NC only. May be repeated for credit. Prerequisites: LIBS 302 and consent of instructor.

Liberal and Elective Studies Core (1-4)

Courses under this core area take as their focus the relationship between the individual and all kinds of human groups. The moral and ethical underpinnings of our patterns of social interaction are investigated with special attention paid to how these do and should affect issues such as race, gender, and class. Of particular importance to social scientists are questions concerning whether the goals of human dignity, political justice, economic opportunity, and cultural expression are being enhanced or destroyed by specific historical developments, cultural practices, economic arrangements, or political institutions.

### LIBS 420A ELEC SEM Core A (3)
Courses in this core area will deal with science and technology and their relationship to the individual and society. In today's world, any well-educated person should understand, at least at a general level, both the methods of science and important information which has been discovered through their applications. Here students build upon their understanding of the sciences and come to grips with some of the crucial issues posed by our culture's applications of science and technology. Students write on topics which address the idea of the material world: scientific aspects of social issues, the contribution science has made to your understanding of an issue of personal concern, and/or your sense of science as a social endeavor.

### LIBS 420B ELECTIVE SEMINAR Core B (3)
Included in this core area are courses that deal with science and technology and their relationship to the individual and society. In today's world, any well-educated person should understand, at least at a general level, both the methods of science and important information which has been discovered through their applications. Here students build upon their understanding of the sciences and come to grips with some of the crucial issues posed by our culture's applications of science and technology. Students write on topics which address the idea of the material world: scientific aspects of social issues, the contribution science has made to your understanding of an issue of personal concern, and/or your sense of science as a social endeavor.

### LIBS 420C ELECTIVE SEMINAR Core C (3)
Through the arts and humanities we explore what and why humans create. These fields include the broad range of experiences in literature, epic, poetry, drama, and other literary forms, the visual arts, languages, architecture, music, dance, the writings of philosophers, and the thought and literature of the world's religions. Study in the arts and humanities explores the inner world of creativity and individual values as well as the questions about how we arrive at a sense of meaning and purpose, ethical behavior, and a sense of beauty and order in the world.

### LIBS 420D ELECTIVE SEMINAR Core D (3)
What one endorses as really "real" is a result of many factors, some of them psychological, some biological, some philosophical, some social, and so forth. Courses in this core area will deal with such issues as the study of biology as it relates to psychology, consciousness as it affects and is affected by perceptions of reality, meaning-making as a necessary human achievement, and identity formation as it is understood in the light of developmental psychology and the nature-nurture controversy. You will have the opportunity to formulate your own thoughts about the status of human consciousness and reality and include that formulation in this section.

### LIBS 480 SEMINAR FACILITATION (1-3)
This course provides students with an opportunity to enhance their facilitation skills through serving as a seminar leader in large lecture/discussion courses. Requires consent of course instructor.

### LIBS 499 INTERNSHIP (1-5)
All students develop an internship working outside the classroom. Students also prepare a portfolio project based upon a larger topic implicit in their internship. They participate with other interns in an internship class once a week to discuss their internship experience and issues related to the larger society. Grade only.

### LIBS 595 SPECIAL STUDIES (1-4)
Individualized studies in areas beyond the scope of the established curriculum.
KIN 305 PSYCHOLOGICAL BASIS OF HUMAN MOVEMENT (4)
Introduction to psychological factors influencing learning and performing motor skills and the psycho-social influences of sport, exercise, and physical activity on the developing individual. Emphasis will be on the application of current motor learning, sport, and exercise psychology theories on such topics as learning, motivation, goal setting, stress, anxiety, group dynamics, leadership, moral development, and exercise adherence. Prerequisite: ENGL 101, WEPF, Upper Division Standing, and consent of instructor for non-Kinesiology majors.

KIN 307 COMPUTER APPLICATIONS IN PHYS EDUC (3)
Provides students with information on, training in, and experiences with various information technology methods and applications related to Physical Education. Two hours of lecture and two hours of laboratory activity per week. Prerequisites: Consent of instructor.

KIN 311 SELECTED TOPICS (1-4)
Selected upper-division courses that are taught on a one-time basis.

KIN 315 SOCIOLOGY OF SPORT (3)
Examines and utilizes basic sociological concepts and demonstrates their manifestations in the teaching of physical education and sports. Prerequisite: ENGL 101. Priority given to Kinesiology majors.

KIN 316 WOMEN IN SPORT: ISSUES, IMAGES, AND IDENTITIES (3)
This course is designed to introduce students to an overview of issues, images, and identities of women participating at various levels of sport in the United States. Attention will be given to the historical, social, political, and economic contexts that have influenced the American woman's experiences in sport. Prerequisites: Junior standing or with consent of instructor.

KIN 320 CURRICULUM, PEDAGOGY, AND ASSESSMENT (3)
This course is designed to explore different styles of teaching, management strategies, and assessment techniques used in physical education. Effective teaching characteristics will be discussed and opportunities given for students to put these into practice. Prerequisite: KIN 300 (3 courses) or consent of instructor.

KIN 325 INTRODUCTION TO ADAPTED PHYSICAL EDUCATION (3)
An introduction to the scope, basic concepts, and teaching methods of adapted physical education; a study of selected disabilities, with a primary focus on implications for physical education. Course includes 18 hours of practical experience in the field.

KIN 330A MEASUREMENT AND EVALUATION (1)
A survey of descriptive statistics. Includes measures of central tendency, variability, scale scores, correlation, and graphing with applications in kinesiology. Meets first half of the semester. Required for all kinesiology majors. Prerequisite: GE math.

KIN 340 EMERGENCY RESPONSE (3)
Study of the principles and practical applications of advanced first aid techniques required to provide the initial emergency care necessary to sustain life and to maintain life support until the victims of accidents or sudden illness are cared for by qualified medical personnel.

KIN 342 PRINCIPLES OF MUSCULOSKELETAL INJURIES (3)
Lecture, laboratory. Designed to show students the proper methods of recognition, evaluation, and treatment of musculoskeletal injuries to the upper and lower extremities. Comprehension of anatomy, mechanism-of-injury, and pathology are stressed. Fee of $10 required for this course. Prerequisite: BIOL 220.

KIN 350 BIOMECHANICS (4)
Lecture, laboratory. Presents the quantitative and qualitative analysis of human movement and the anatomic concepts needed for understanding human movement in relation to mechanical effects such as application of force in relation to center of mass, displacement, velocity, acceleration of bodies, and buoyancy. Emphasis is on understanding and application of principles to any movement pattern. Prerequisites: BIOL 220 and GE math.

KIN 360 PHYSIOLOGY OF EXERCISE (4)
Lecture, laboratory. Study of the acute and chronic effects of human activity and exercise. Laboratory and field experiences in selected areas, including exercise metabolism, skeletal muscle and cardiopulmonary physiology, body composition estimation, and nutrition as they pertain to clinical, fitness, and sports settings. Prerequisites: GE math, BIOL 115 and BIOL 224.

KIN 371 INTERCOLLEGATE BASEBALL, MEN (2)
Activities include: soccer, tennis, basketball, and baseball. May be repeated for credit.

KIN 372 INTERCOLLEGATE BASKETBALL, MEN (2)
Activities include: soccer, tennis, basketball, and baseball. May be repeated for credit.

KIN 373 INTERCOLLEGATE CROSS COUNTRY, MEN (2)
Activities include: soccer, tennis, basketball, and baseball. May be repeated for credit.

KIN 374 INTERCOLLEGATE FOOTBALL, MEN (2)
Activities include: soccer, tennis, basketball, and baseball. May be repeated for credit.

KIN 375 INTERCOLLEGATE SOCCER, MEN (2)
Activities include: soccer, tennis, basketball, and baseball. May be repeated for credit.

KIN 376 INTERCOLLEGATE TENNIS, MEN (2)
Activities include: soccer, tennis, basketball, and baseball. May be repeated for credit.

KIN 377 INTERCOLLEGATE TRACK AND FIELD, MEN (2)
Activities include: soccer, tennis, basketball, and baseball. May be repeated for credit.

KIN 378 INTERCOLLEGATE GOLF - MEN (2)
Activities include: soccer, tennis, basketball, and golf. May be repeated for credit.

KIN 381 INTERCOLLEGATE BASKETBALL, WOMEN (2)
Activities include: cross country, golf, soccer, volleyball, tennis, waterpolo, basketball, and softball. May be repeated for credit.

KIN 382 INTERCOLLEGATE CROSS COUNTRY, WOMEN (2)
Activities include: cross country, golf, soccer, volleyball, tennis, waterpolo, basketball, and softball. May be repeated for credit.

KIN 383 INTERCOLLEGATE SOCCER, WOMEN (2)
Activities include: cross country, golf, soccer, volleyball, tennis, waterpolo, basketball, and softball. May be repeated for credit.

KIN 384 INTERCOLLEGATE SOFTBALL, WOMEN (2)
Activities include: cross country, golf, soccer, volleyball, tennis, waterpolo, basketball, and softball. May be repeated for credit.

KIN 385 INTERCOLLEGATE TENNIS, WOMEN (2)
Activities include: cross country, golf, soccer, volleyball, tennis, waterpolo, basketball, and softball. May be repeated for credit.
KIN 386 Intercollegiate Golf, Women (2)
Activities include: cross country, golf, soccer, volleyball, tennis, waterpolo, basketball, and softball. May be repeated for credit.

KIN 387 Intercollegiate Volleyball, Women (2)
Activities include: cross country, golf, soccer, volleyball, tennis, waterpolo, basketball, and softball. May be repeated for credit.

KIN 388 Intercollegiate Women's Water Polo (2)
Activities include: cross country, golf, soccer, volleyball, tennis, waterpolo, basketball, and softball. May be repeated for credit.

KIN 395 Community Involvement Program (1-4)
Provides majors and non-majors the opportunity to gain volunteer experience working with individuals with disabilities in designated on-campus and community placements involving physical activity. Thirty hours of verified, supervised work and scheduled meetings with the instructor are required for each unit of credit. Requirements include a daily journal and portfolio. Prerequisite: permission of instructor.

KIN 400 Elementary School Physical Education (3)
An introduction to and practice in applying the concepts and principles of developmentally appropriate physical education for children. Prerequisite: upper-division majors in kinesiology, or multiple-subject credential candidates, or by consent of instructor.

KIN 404 Theory of Coaching (2)
A survey of issues encountered by coaches in all sports. Topics will include, but not be limited to communication with players, colleagues and administration, ethical issues and responsibilities, coaching philosophies, relations with media and community, time management, coach and athlete motivation, mental training skills, and equipment and facilities management. Prerequisite: ENGL 101, Upper Division standing, and consent of instructor for non-Kinesiology majors.

KIN 410 Lifespan Motor Development (3)
Survey of the development of perceptual-motor function from birth through aging, with emphasis on gross motor performance.

KIN 425 Seminar in Adapted Physical Edu (3)
Exploration and discussion of current research and professional issues in the field of adapted physical activity. Prerequisite: KIN 325 or equivalent. Corequisite: 1 unit KIN 430C.

KIN 426 Individualized Assessment and Program Design (4)
Selection, administration, and interpretation of motor assessment instruments. Planning and developing appropriate activities and programs to meet individual needs for children and adults with disabilities. Prerequisites: KIN 325, 330A, and 410 or consent of instructor.

KIN 427 Individuals with Disabilities in Educational and Recreational Settings (3)
To explore the role of psychosocial context in the design and implementation of effective learning environments for youth and adults with disabilities, using service-learning pedagogy.

KIN 430A Field Experience in Physical Education (1-3)
Provides upper-division kinesiology majors experiences in teaching in K-12 public or private school setting. Course requirements include a work journal, development of a personal portfolio, and verification of completion by immediate supervisor. Prerequisites: completion of 10 units in physical education concentration related to specific field experience; C average in major and support courses.

KIN 430C Field Experience in Adapted Physical Education (1-3)
Provides upper-division kinesiology majors specializing in adapted physical education an opportunity to work with individuals with disabilities in school or other settings. Course requirements include a daily journal, development of a personal portfolio, and verification of completion by immediate supervisor. Prerequisites: KIN 325; C average in major and support courses.

KIN 430D Field Exp in Exercise Science (1-3)
Provides qualified upper-division students an opportunity to gain experience in either applied exercise physiology, biomechanics, or physical therapy. Course requirements include the development of a personal portfolio, a log of completed hours, a daily journal describing experiences, and verification of completion by immediate supervisor. Prerequisites: completion of a minimum of three support and/or core courses related to the field experience; C average in major and support courses.

KIN 430E Field Experience in Lifetime Fitness (1-3)
Provide qualified upper-division students an opportunity to gain experience private and public fitness settings. Course requirements include, but are not limited to a daily journal describing experiences, a log of completed hours, and verification of completion by an immediate supervisor. Prerequisites: completion of a minimum of three support courses and/or core courses related to the field experience, C average in major and support courses.

KIN 442 Musculoskeletal Evaluation, Training and Treatment (4)
Lecture, laboratory. Students learn the HIPS technique for evaluating musculoskeletal conditions and injuries. The prevention of musculoskeletal injuries and proper disposition of the patient will be stressed. The theoretical basis of rehabilitation and the physics/mechanics of therapeutic modalities, as well as common musculoskeletal injuries to the axial skeleton will be studied. Prerequisite: KIN 342.

KIN 446 Exercise Instruction (3)
This course provides each student with practical learning experiences designed to develop the skills needed to be a competent exercise instructor/leader. The course allows students to put into practice their knowledge of exercise from their previous coursework in biomechanics, exercise, physical and conditioning for performance and health. Students will be involved in group-centered instruction, field observation, laboratory experiences, and skill execution practicals. Prerequisites: KIN 350 and KIN 360.

KIN 460 Conditioning for Performance and Health (3)
A review of methods for the conditioning of a broad range of people from exercising adults through competitive athletes. Emphasis during the first half of the semester will be on topics related to adult fitness, including cardiorespiratory fitness, resistive training, flexibility, weight management, and exercise for special populations. During the second half of the semester topics related to athletes will include endurance training, training for strength and power, nutritional considerations for athletes, and the use of various putative ergogenic aids. Prerequisite: KIN 360.

KIN 495A Special Studies in PE (1-4)
Includes completion of a project designed to meet a specialized advanced study need. The student should have prerequisite skills. The project should be planned and described in writing, in consultation with and with the consent of the faculty advisor. There are four areas of study: 495A Special Studies in Physical Education; 495C Special Studies in Adapted PE; 495D Special Studies in Exercise Science; and 495E Special Studies in Lifetime Fitness.

KIN 495C Special Studies in Adapted PE (1-4)
Includes completion of a project designed to meet a specialized advanced study need. The student should have prerequisite skills. The project should be planned and described in writing, in consultation with and with the consent of the faculty advisor. There are four areas of study: 495A Special Studies in Physical Education; 495C Special Studies in Adapted PE; 495D Special Studies in Exercise Science; and 495E Special Studies in Lifetime Fitness.
KIN 500 INTRODUCTION TO SCHOLARLY INQUIRY IN KINESIOLOGY (2)
This course is designed to prepare graduate students in Kinesiology to formulate and carry out a research project as part of his/her M.S. degree. Both theoretical and practical aspects of research will be included: examination of research paradigms, critical review of literature, effective design of a study, concepts of statistical and qualitative analysis of data, and the use of the library and computers as research tools. Prerequisite: KIN 330A or a course in descriptive statistics; an introductory computer course; and graduate standing.

KIN 505 SEMINAR IN PSYCHOLOGICAL BASES OF HUMAN MOVEMENT (3)
A critical review of current literature regarding the social and psychological factors involved in participation in sport, exercise, and physical activity on individuals and group over the lifespan. Prerequisite: KIN 305 and KIN 315 or equivalents.

KIN 520 PEDAGOGICAL METHODS (3)
This course will examine instructional theories and models of teaching while focusing on practical applications that can lead to improvement of teaching physical education. The teaching of physical education will be analyzed in context with various teaching approaches, systematic observation techniques, principles of supervision, and will endorse a “theory into practice” approach to teacher effectiveness. Prerequisite: KIN 320 or its equivalent.

KIN 521 CURRICULUM DESIGN AND ANALYSIS IN PHYSICAL EDUCATION (3)
Intensive study, evaluation, and application of current developments in curriculum theory and practice for public school Physical Education. Includes review of literature related to curriculum development, review of professional standards, and examination of curricula models, leading to the design of an innovative physical education curriculum plan. Prerequisite: KIN 520 Pedagogical Methods or its equivalent.

KIN 522 RESEARCH AND ISSUES IN PHYSICAL EDUCATION TEACHER EDUCATION (3)
The central focus of this course is to introduce students to literature and research on teacher preparation, effective teaching, and research on effective schools. This includes an understanding of the research questions pursued, the methodologies employed, and the results generated. Prerequisite: KIN 520 Pedagogical Methods or its equivalent.

KIN 525 INDIVIDUALIZED MOVEMENT PROGRAMS FOR REHABILITATION EDUCATION (3)
The student will learn how to formulate individualized exercise programs for rehabilitation/development of fitness skills in people with orthopedic injuries, chronic diseases, and disabilities. This course will take both a medical and functional point-of-view in dealing with development/return of quality-of-life skills, as well as advanced athletic skills. Prerequisites: Human Anatomy/Human Physiology/Athletic Injuries/Adaptive P.E.

KIN 550 SEMINAR IN BIOMECHANICS (2)
This course uses topical published research articles to discuss the quantitative and qualitative analysis of human movement and their application for Kinesiology professionals. Topics will vary; however, the underlying objective will be to understand aspects of the research presented in these articles including appropriateness of research design, methodology, statistical methods, analysis techniques, and limitations of studies. Prerequisite: KIN 350 or equivalent.

KIN 560 ADVANCED PHYSIOLOGY OF EXERCISE (2)
This course will center around the presentation and discussion of topics related to the application of exercise physiology to school, athletic, and adult fitness settings. Topics will include metabolism and nutrition as it pertains to exercise, the muscular system and resistive training, body composition and weight loss, the cardiovascular system as it relates to endurance training and cardiac rehabilitation, and exercise in extreme environmental conditions, and commonly used ergogenic aids. Prerequisite: KIN 360 or equivalent.

KIN 578 PROJECT CONTINUATION (1-3)
Designed for students working on their thesis or master's project but who have otherwise completed all graduate coursework toward their degree. This course cannot be applied toward the minimum number of units needed for completion of the master's degree. Prerequisite: permission of the graduate coordinator. Cr/NC only.

KIN 590 GRADUATE INTERNSHIP (3)
KIN 590 students will have opportunity to apply Kinesiological theories and methods in field experiences related to Kinesiology professions. Internships require faculty approval and a minimum of 45 hours of work per unit, including regular consultation with and evaluation by the faculty sponsor. Prerequisite: graduate standing and consent of instructor.

KIN 595 SPECIAL STUDIES (1-4)
Includes completion of a project to meet a highly specialized advanced study need. Project to be selected in conference with the faculty advisor and approved by the departmental Graduate Studies Committee. Prerequisites: consent of instructor and approval of departmental Graduate Studies Committee before the study is initiated.

KIN 599 CULMINATING PROJECT (3)
KIN 599 Culminating Project is a scholarly investigation based on the students’ concentration area. Students will complete one of the following: project, thesis, scholarly article, clinical project, or business/curriculum plan. Prerequisite: KIN 590 and an authorized Advancement to Candidacy form.
