The Library enjoys extensive borrowing agreements which provide speedy access to the materials held by institutions throughout the state and the country.

The Information Commons on the first floor is a multi-functional location providing students a unique gathering space for group study, research, writing, and pursuing other academic tasks. The Information Commons provides extensive access to the types of technology needed by today's students including productivity software and presentation software such as PowerPoint and iMovie.

Reference services on the second floor range from quick answers for simple questions to advanced research consultations with librarians. A 24/7 chat reference service and an email-based “Ask a Librarian” service provide additional help.

The Library Teaching Center (LTC) on the second floor is home to the Library's instruction program. Instruction services include workshops and training (both in person and online) in library research and resources, specialized sessions for specific classes at the request of instructors, and targeted sessions for entering freshmen. An interactive multimedia development lab, teaching labs and open study space are also part of the LTC.

The Multimedia Center, also on the second floor, houses the non-print collection, such as sound recordings, videocassettes, DVDs, and the equipment to use these materials. Group viewing rooms are available.

The third floor houses most of the University Library's circulating collection, special collections and University Archives.

Computers and study spaces are available throughout the University Library, providing areas for quiet study, group work, relaxed reading & listening, group viewing, and meeting places.

The Information Center was made possible through a generous gift from Jean and Charles Schulz, the Rancho-Cotati Unified School District, private donations, and the support of California taxpayers.
