Credential Programs, School of Education

Date: Thurs, Dec 8th
Time: 5:30-7pm, presenters please arrive by 5pm to set up!
Location: Schulz 3001

About the Showcase
The Pre-Service Teacher Technology Showcase is intended to provide pre-service teachers (and recently credential students in their first or second year) with an opportunity to present how they have used or plan to use technology in the classroom to support students and student learning. The Showcase will be run like a poster session at a conference and this will allow students to share with attendees their unit plans, lessons, or activities that incorporate new media technologies.

What is the goal of the Showcase?
The goal of the Showcase is to highlight how our novice teachers are integrating technology in their work with students. The focus is not just on the technological tools the teachers are employing but also on the content objectives as well: how are you creating a better learning environment for students through the integration of this technology? Additionally, the SoE is always excited to bring educators and community members together to support novice teachers and discuss their work.

Please complete and email <jessica.parker@sonoma.edu> this form by Friday, Dec 2nd in order to present at the Pre-Service Teacher Technology Showcase:

1. Name (as you want it to appear on your badge):
2. Email:
3. Credential program (e.g. single subject English, multiple subject, etc.):
4. Semester in program:
5. Technology you will showcase (e.g. Google Earth, Flickr, etc.):
6. Remember that the goal of the Showcase is to discuss the content objectives as well as the technological tool employed. Please describe the specific content area, topic, or issue that you will be discussing:
7. How might you display your work at the Showcase (e.g. laptop, iPad, poster board, etc.):
8. Do you plan on handing out materials at the Showcase such as a lesson activity, entire lesson plans or unit plans, resources, etc.? Please describe.
9. Technology needs (e.g. projector, laptop, etc.) for the Showcase:
10. Any questions or concerns?
