Sonoma State Teacher Technology Showcase
Featuring the Innovative Work of Local Educators

www.sonoma.edu/education/techshowcase

Date: Thursday, December 5, 2013
Time: 5:00-7:00 PM (*presenters please arrive by 4:30 PM to set up!*)
Location: The Cooperage (*near Ameci’s*)

About the Showcase
The SSU Teacher Technology Showcase is intended to provide teachers, both pre- and in-service, with an opportunity to present how they have used or plan to use technology in the classroom to support students and student learning. The Showcase is run like a poster session at a conference and this will allow presenters to share their unit plans, lessons, or activities that incorporate new media technologies.

What is the Goal of the Showcase?
The goal of the Showcase is to highlight how you are creating a better learning environment for students through the integration of technology.

Expectations of Presenters
Prepare a 2-3 minute demonstration about how you use the technology for teaching and learning.

Presentation materials will be shared at the showcase using either laptop or tablet.

These materials should be posted online as well (e.g., Dropbox, Google Drive, Prezi, etc.).

Examples of Presentations
- Exploring Plate Tectonics Using ArcGIS Online
- Flipping the Mathematics Classroom with Screencasting
- Smilebox.com: Effects on Socialization
- Using Voicethread to Talk about Literature
- Critical Inquiry through Animoto Videos
- Educreation iPad App: Quick Assessments in Science
- Online Circuit Construction in Physics
- Google Moon Landing
