3419 Broadway Street, Suite H8 American Canyon, CA 94503

SUBJECT: Submittal of Sonoma State University Asbestos Testing for June 2016

Sonoma State University is providing with this letter asbestos testing results for the month of June 2016 for review and comment. The University has made every effort to implement an effective Asbestos Management Program that meets and exceeds all Cal/OSHA and EPA requirements.

You may find information about SSU's asbestos management program on the University's web site at http://www.sonoma.edu/ehs/hazmat/asbestos/.

It is of utmost importance to the University to meet the legal standards for maintaining a safe and hazard-free environment for our campus community. To this end we are forwarding the testing results for your independent review. Please apprise us promptly if any test results we have submitted do not comply with your regulatory standards.

Our current activities involve working with Forensic Consulting to investigate elevated settled dust levels identified in certain interstitial space. The investigation will include task specific personal air assessments, monthly building air sampling, Communication to employees, and any procedural enhancements identified through the process.

If you have any questions, please do not hesitate to contact Craig Dawson, Director of Energy, and Environmental Health & Safety; office 707-664-2932, cell 707-486-1360.
