Sonoma State University
Construction Management Certificate Program

Course Offerings

There are three course offerings during the spring and fall semester for the Construction Management Certificate program at the Sonoma State University campus. Classes take place one evening a week for 10 weeks, 7 – 10pm, at $350 per class. Students are to complete eight courses in order to receive the SSU Construction Management Certificate, for a total of 240 hours and 24 Continuing Education Units (CEU’s). Anyone can take individual Construction Management courses to meet their professional needs. Construction Management Certificate students typically complete the program within two years. Course offerings change every semester and are dependent on instructor availability.

The following list is an example of courses that have been offered in the Construction Management Certificate program:

- California Labor & Employment Law
- Construction Project Management
- Risk Management for the Residential Remodeler
- Introduction to Construction Drawings
- Finance & Operations in Construction
- Residential Estimating
- Profitable Construction Business
- California Construction Law
- Building Construction Technology
- Effective Design & Construction Team Leadership
- Introduction to Engineering Construction
- Construction Project Planning & Construction
- Construction Management Safety and Beyond
- Construction Organization and Management
- General Contracting and Construction Management
