

## INTERNSHIP OPPORTUNITY: **Conservation Science Intern**

**Date Posted:** Wednesday, August 15, 2012

**Start date:** Fall 2012; internships open until filled; start date & term variable/flexible

**Location:** Sebastopol, CA

**Hours:** Credit load and semester term flexible; hours to be arranged. Preference will be given to students that can work at least one full eight hour day per week throughout the internship.

**Compensation:** Stipend available for students who commit to a minimum number of credit hours.

**Description:** The Laguna Foundation is seeking interns to support watershed and vernal pool & endangered plant data collection, entry, and analysis. Internships provide an excellent opportunity to gain hands on applied experience in a broad range of environmental management, conservation, and scientific research techniques.

**Qualifications:** Ability to perform physical work outdoors in variable weather conditions and on uneven terrain. Candidates must be reliable, motivated, with good communication skills. Must have reliable transportation to organizational facilities and project sites. Familiarity with MS Office software a plus. GPS/GIS skills useful but not necessary.

**TO APPLY:** Please submit a brief letter of interest indicating weekly availability, and a resume to:

Meghan Parish, Conservation Science Program Manager  
Laguna de Santa Rosa Foundation, 900 Sanford Rd., Santa Rosa, CA 95401  
**Phone:** 707-527-9277 ext. 105 **Email:** [meghan@lagunafoundation.org](mailto:meghan@lagunafoundation.org)

The Laguna de Santa Rosa Foundation works to preserve, restore and enhance the Laguna de Santa Rosa, the largest tributary of the Russian River and Sonoma County's richest wildlife area, and to inspire greater public appreciation and enjoyment of the Laguna.
