| D            | 240-279  
| F            | 239 and below  

Attendance Regular class attendance is important directly because homework, quizzes and class participation will count toward your grade, and indirectly in that class lectures will contain material that you will be responsible for, but that may not be covered in the text. Thus it is highly recommended that you attend class on a regular basis.  

Academic Dishonesty Students are encouraged to work together, however, academic dishonesty will not be tolerated. Students who submit identical homework assignment(s) will receive a grade of “0” on the offending assignment. Repeat offenses will result in a “0” grade on all assignments. Cheating on an exam will result in a “0” grade for that exam, and will have disastrous consequences for your final grade. If you are having difficulty with the course work, please see me!  

Note Any student with a disability requiring an accommodation should make this need known to the instructor during the first class period. Every effort will be made to accommodate your needs.
