California Education Code

Section 200

SEXUAL HARASSMENT HANDOUT

DEFINITION:
Unwanted verbal or physical behavior of a sexual nature that makes someone feel uncomfortable or unwelcome that occurs in the workplace or in an educational setting.

Such behavior is illegal if it creates a hostile or intimidating environment, if it interferes with an individual’s work or school performance, or if acceptance of the harasser’s behavior is made a condition of employment or academic achievement.

California Education Code

(b) Submission to, or rejection of, the conduct by the individual is used as the basis of employment or academic decisions affecting the individual.
(c) The conduct has the purpose or effect of having a negative impact upon the individual's work or academic performance, or of creating an intimidating, hostile, or offensive work or educational environment.

California Code of Regulations

Certificated School Personnel Responsibilities

It is the teacher’s responsibility to take appropriate actions to prevent and report incidents of sexual harassment to their school site administration. Be sure to consult and follow your school district’s policies and procedures on sexual harassment.

Suggested Reporting Procedures Guidelines

- Keep accurate and detailed records of the sexual harassment incident.
- Report sexual harassment to the appropriate person at your school site.
- Follow your school district’s policies and procedures on sexual harassment reporting.
CHILD ABUSE HANDOUT

DEFINITION:
1. A physical injury inflicted, not by accident, on a child by another person
2. Sexual abuse of a child
3. Willful cruelty or unjustifiable punishment of a child, or willfully inflicting unjustifiable physical pain or mental suffering, or failure to safeguard a child from these injuries when the child is under a person’s care or custody
4. Unlawful corporal punishment or injury resulting in a traumatic condition
5. Neglect of a child or abuse in out-of-home care

Mandated Reporters of Child Abuse
“Mandated Reporters” include virtually all school employees. The following school personnel are required to report:

Teachers, administrators, supervisors of child welfare and attendance, certificated student personnel employees, employees of a child care institution, headstart teachers, school psychologists, licensed nurses, counselors, presenters of child abuse prevention programs and those instructional aides or other classified employees trained in child abuse reporting.

Duty to Report
A mandated reporter shall make a report to a child protected agency, whenever the mandated reporter, in his or her professional capacity or within the scope of his/her employment, has knowledge of or observes a child whom they know or reasonably suspect has been the victim of child abuse. The mandated reporter shall make a report to the agency immediately or as soon as practically possible by telephone, and shall prepare and send a written report thereof within 36 hours of receiving the information concerning the incident.

“Reasonable Suspicion” means that it is objectively reasonable for a person to entertain such a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his/her training and experience, to suspect child abuse.

“Child Protective Agencies” are law enforcement and child protective services responsible for investigating child abuse reports, including the local police or sheriff department, county welfare or juvenile probation department and child protective services.

Legal Responsibility and Liability
1. Mandated reporters have absolute immunity. School employees required to report are not civilly or criminally liable for filing a required or authorized report of known or suspected child abuse.
2. If a mandated reporter fails to report an instance of child abuse he/she knows to exist or reasonably should know to exist, he/she is guilty of a misdemeanor punishable by confinement in jail for up to six months, a fine of up to $1000, or both. The mandated reporter may also be held civilly liable for damages resulting from any injury to the child after a failure to report.
3. When two or more persons who are required to report have joint knowledge of a suspected instance of child abuse, and when they so agree, the telephone report may be made by either of them and a single report made and signed by that person. However, if any person knows or should know that the designated person failed to make the report, that person then has a duty to do so.
4. The duty to report child abuse is an individual duty and no supervisor or administrator may impede or inhibit such reporting duties. Furthermore, no person making such a report shall be subject to any sanction.

**Reporting Procedures**

To report known or suspected child abuse, any employee shall report by telephone to the local child protective agency. The telephone report must be made immediately, or as soon as practically possible, upon suspicion. This report will include:

1. The name of the person making the report
2. The name of the child
3. The present location of the child.
4. The nature and extent of any injury
5. Any other information requested by the child protective agency, including the information that led the mandated reporter to suspect child abuse.

When the verbal report is made, the mandated reporter shall note the name of the official contacted, the date and time contacted, and any instructions or advice received.

**Within 36 hours** of making the telephone report, the mandated reporter will complete and mail a written report which must include a completed Department of Justice form (DOJ SS 8572) to the local child protective agency. Mandated reporters may obtain copies of DOJ form from the district or local child protective agency. Instructions are included on the form and site administrators may help in completing and mailing form. However, the mandated reporter is personally responsible for ensuring that the written report is correctly filed.

Employees reporting child abuse to a child protective agency are encouraged to notify the site administrator as soon as possible after the initial verbal report by telephone. When notified, the site administrator will inform the Superintendent. Notified administrators shall provide the mandated reporter with any assistance necessary to ensure that reporting procedures are carried out in accordance with law and district regulations. The principal may assist in completing and filling these forms at the mandated reporter’s request.

If the mandated reporter does not disclose his/her identity to a district administrator, he/she shall at least provide or mail a copy of the written report to the district without his/her signature or name.

**When School Employees are Accused of Child Abuse…**

Regardless of who child abusers may be, the major responsibility of mandated reporters are to (1) identify incidents of suspected child abuse, and (2) comply with laws requiring the reporting of suspected child abuse to the proper authorities.

Determining whether or not the suspected abuse actually occurred is not the responsibility of the school employee. Such determination and follow-up investigation will be made by a child protective agency. Pending the outcome of an investigation by a child protective agency and before formal charges are filed, the employees may be subject to reassignment or a paid leave of absence.

Upon filing formal charges or upon conviction, the district may take disciplinary action in accordance with the law, district policies, regulations and/or collective bargaining agreements. The Superintendent or designee shall seek legal counsel in connection with either the suspension or dismissal of the employee.
